A STORY. ABOUT THE NIMBLE SIX-PENCE. It is Like a Ball of Snow, the Faster You Roll It the More Rapidly It Will Accumulate. We recognize the fact that to succeed we must undersell. We recognize that in order to keep our stock complete we must get the pay for our goods promptly. We also recognize the fact that when we sell our goods on such close prices as to bring them below competition we must collect frequently in order to keep the ball rolling. We appreciate highly the patronage and kind words of encouragement from our friends and patrons, and request you to encourage us further by coming in and paying up your accounts with cash, so we can replace the goods which you have bought without involving ourselves in debt these scary wartimes. We hope to be of service to our patrons and can save you money, but do not overlook the main essential point: We need our money often. We are anxious to reduce stock in many lines as much as possible from now till September 1st and will sell at greatly reduced prices. We have just received a new book of receipts which we would like to up inside of the next thirty days. Call and see us when in town. Respectfully, J. D. PULLIN & CO.
